

Alamance County Board of Commissioners

ACTION ITEM AGENDA ITEM

MEETING DATE: 10/2/2023

DATE SUBMITTED: 9/20/2023

FROM: Tony Lo Giudice

DEPT: Public Health

AGENDA TITLE: Fee Update – Public Health

TO: Alamance County Board of Commissioners

ISSUE/ACTION REQUESTED:

The board will consider amending the personal health fee schedule to include respiratory syncytial virus (RSV) vaccine fees. Fees will be effective immediately upon approval by the Alamance County Board of Commissioners.

BACKGROUND/PURPOSE OF REQUEST:

On June 21, 2023, ACIP voted to recommend that adults aged ≥ 60 years may receive a single dose of an RSV vaccine (RSVPreF3 (Arexvy), RSVpreF (Abrysvo)), using shared clinical decision-making.

On August 3, 2023, ACIP voted to recommend nirsevimab for all infants aged < 8 months who are born during or entering their first RSV season and for infants and children aged 8–19 months who are at increased risk for severe RSV disease and are entering their second RSV season.

Based on costs associated with purchasing the vaccines, we recommend the following fees associated with the new CPT codes:

Procedure Code	Procedure Code Description	Requested Fee	Effective Date
90380	Beyfortus nirsevimab (Respiratory syncytial virus, monoclonal antibody, seasonal dose; 0.5 mL dosage, for intramuscular use)	\$544.00	10/2/2023
90381	Beyfortus nirsevimab (Respiratory syncytial virus, monoclonal antibody, seasonal dose; 1 mL dosage, for intramuscular use)	\$544.00	10/2/2023
90678	Abrysvo (Respiratory syncytial virus (RSV), vaccine, bivalent, protein subunit RSV prefusion F, diluent reconstituted, 0.5 mL, preservative free)	\$282.00	10/2/2023
90679	Arexvy (Respiratory syncytial virus (RSV), vaccine, recombinant, protein subunit RSV prefusion F, adjuvant reconstituted, 0.5 mL, preservative free)	\$282.00	10/2/2023

The Alamance County Board of Health reviewed and approved this request at its September 19, 2023, meeting.

RECOMMENDATION:

Public health staff recommend approval.
